Subject: 42V VEI Meeting on May 9th

The next virtual meeting of the 42V VEI group will be held on Tuesday, May 9th, from 10:00 a.m. until 12:00 noon (U.S. Eastern Daylight Time). Here is the agenda for the meeting

- 1) Smartpost Update (Ford, DaimlerChrysler, Motorola)
- 2) Energy Transfer Test Data (Darrell Sitar - Ford)
- 3) MOSFET Test Results (Dougherty - JCI)
- 4) 36V Battery Termination Workgroup (Andrew - JCI, Traub - Delphi)

Here is the AT&T Dial-in Information:

Meeting Date: Tuesday, May 9, 2000
Meeting Time: 10am --- 12pm (US Eastern Time)
Dial-in Number: (734)414-0268
Participant Code: 197333
IP Address: 204.151.177.65
Meeting Name: 288765605
Password: 197333

Finally, I would like to remind everyone that the next face-to-face meeting will be held on Monday, May 22nd, in Vancouver, British Columbia. Please let me know of agenda topics for that meeting. So far, the following subjects have been scheduled:

- 1) Jumpstart - overall dialog about what we are proposing for jumpstart. If companies have competing proposals, they should be presented and discussed.
- 2) Sociology and Culture of Distributed Virtual Work Teams - report by Julie Rennecker

Regards,
Gary
